IOSH Managing Safely e-Learning

Course Introduction

Managing safely is a flexible course for managers and supervisors in any sector, in any organisation. It brings managers up to speed on the actions they need to take to handle health and safety in their teams. Managing safely won't turn learners into health and safety experts but it will give them the knowledge and tools to tackle the health and safety issues they're responsible for. Importantly, it brings home why health and safety is such an essential part of their job.

Delegates have 6 Months to complete this course online.

This course is also available via classroom learning - head here for further information.

Course Topics

Introducing Managing Safely

Assessing Risks

Controlling Risks

Understanding your Responsibilities

Investigating Incidents

Measuring Performance

Course Benefits

This qualification is essential for all Managers. All Managers are responsible for their employees' health and safety and providing a safe working environment. This qualification will provide the guidance on how to do just that and outline what actions should be taken by managers to avoid health and safety pitfalls they probably never even considered.

Assessment Method

30 Multiple Choice & Short Answer Questions & On-Site Risk Assessment

Qualification Expiry

Lifelong
