

# RTITB Lift Truck Instructor Initial/ Novice

## Course Introduction

The RTITB accredited Lift Truck Instructor Initial/ Novice course is for experienced lift truck operators, who are looking to take the next step to deliver lift truck operator training.

This course is for any lift truck operator who has not taken any formal training as an instructor before. This course provides interactive guided theory, discussion and practice. By the end of the course each learner will be able to cater for the needs of their learners both in the training room and practical teaching of lift truck operation.

- How to conduct a practical skills test

## **Course Benefits**

The RTITB Lift Truck Instructor course will provide experienced operators with the skills and knowledge to become qualified and competent instructors. This is ideal for organisations looking to upskill and train internal team members to deliver internal training to the industry leading accredited standards of RTITB, whilst saving on costs.

On successful completion of the course, instructors will also be able to register to the RTITB international register of professional instructors. This is a network of over 5000 instructors, trained to the RTITB standard. Find out more about the benefits of the RTITB register of professional instructors, [by clicking here](#).

## **Assessment Method**

Each learner is individually assessed throughout the training delivery. On the final day of delivery, each learner is then assessed externally by a qualified RTITB examiner.

## **Qualification Expiry**

5 Years
