

Train the Trainer

Course Introduction

Alpha offers bespoke Train the Trainer solutions to better the internal development and transfer of skills within any organisation. Upon request, we are able to adapt existing training materials to suit specific organisational learning goals.

Whether relating to the coaching and mentoring of internal processes, relaying of safety or other critical information or internal mandatory annual training, we can help.

Recent Train the Trainer projects have included teaching our clients how to successfully educate their staff in:

- Manual Handling and The Safe use of Industry Specific Lifting Aids
- The implementation of Permits to Work Policy & Processes
- Lock-Out Tag-Out Protocol

Course Topics

- Planning
- Material Development
- Teaching Techniques
- Incorporation of Learning Styles
- Assessment
