

IOSH Managing Safely

Course Introduction

Managing safely is a flexible course for managers and supervisors in any sector, in any organisation. It brings managers up to speed on the actions they need to take to handle health and safety in their teams. Managing safely won't turn learners into health and safety experts but it will give them the knowledge and tools to tackle the health and safety issues they're responsible for. Importantly, it brings home why health and safety is such an essential part of their job.
