

# CITB SMSTS Refresher

## Course Introduction

The Site Managers Safety Training Scheme has become the minimum requirement for a site manager to hold before even setting foot on site. This course ensures that Site Management Skills are kept current and will provide you with a valid certificate for a further 5 years.

Awarded by CSkills, the awarding body for the CITB, the course has been designed by people who have had, and continue to have, on-site experience as managers. Because of this, the course flows naturally and provides the students with all the skills they need to effectively manage the safety aspects of a construction site.

## Course Topics

- The Health and Safety at Work Act
- Construction Design and Management (CDM) Regulations 2015
- Risk Assessments/Method Statements (RAMS)
- Recent changes in accepted working practices
- Behavioural safety
- Management of Occupational Health
- Electricity
- Excavations
- Working at Height
- Scaffolding
- Demolition
- Confined Spaces

## Course Benefits

Anybody with on-site managerial responsibilities or hoping to become a Site Manager should consider this qualification a must. You will not be allowed on-site in a Managerial capacity without it.

## Assessment Method

25 Question Multiple Choice Exam & Written Assessment

# Qualification Expiry

5 Years
