

# NEBOSH National Certificate in Fire Safety & Risk Management | NCG1 Exempt

## Course Introduction

The NEBOSH National Certificate in Fire Safety and Risk Management course covers the management of health and safety and in particular fire safety including legal requirements. It also includes principles of fire and explosion, causes and prevention of fires, fire protection in buildings and ensuring the safety of people in the event of fire.

The content is designed to equip those studying it to undertake fire risk assessments in most, low risk workplaces. The syllabus is mapped to both the National Occupational Standards for Health and Safety owned by Proskills and the Fire Safety NOS owned by SkillsPlus.

*Alpha Safety are also proud to be able to offer the NEBOSH Fire & Risk management Certificate via eLearning.*

---

**PLEASE NOTE:** Alpha Safety deliver The NEBOSH Fire & Risk Management, NFC1&2 Units independently of the NGC1 unit, common to the General and Construction Certificate.

Students are required to hold a current NGC1 modular certificate issued within 5 years of this training to be able to attain the full NEBOSH National Certificate in Fire Safety and Risk Management qualification.

---

If you do not yet hold an NGC1 modular certificate, or if you completed your NEBOSH National General/Construction certificate more than 5 years ago we can still help...

To attend both modules or for more information please contact Marc Williams ([Marc@AlphaSafety.co.uk](mailto:Marc@AlphaSafety.co.uk))

## Course Topics

The qualification is divided into three units, each of which is assessed separately:

**NGC1: Management of Health and Safety** (not included)

**FC1: Fire Safety and Risk Management**

- Managing Fire Safety
- Principles of Fire and Explosion
- Causes and Prevention of Fires and Explosions
- Fire protection in Buildings
- Safety of People in the Event of Fire

- Fire Safety Risk Assessment

## **FC2: Fire Safety Practical Application**

- Work-based Project

## **Course Benefits**

The NEBOSH Fire Certificate is essential for managers, supervisors or employees who's responsibility it is to ensure that their organisation meets legislative responsibilities under fire safety regulations. Upon completing this qualification, you will understand fire safety issues that impact the business, how to effectively manage fire risks as well as relevant UK legislation relating to the management of fire safety at work.

## **Assessment Method**

Two 2 Hour Exams and Project (FC2)

## **Qualification Expiry**

Lifelong
